Summary

Engineer who ships reliable systems, writes boringly good docs, and consults rubber ducks before merging.

Education

University of Hypothetical Sciences — Null Island, AT
B.S. Computer Science — Aug 2019 – May 2023

- GPA: 3.9/4.0 | Coursework: Algorithms, Distributed Systems, Databases

Experience

Infinite Loop Inc. — Remote
Senior Bug Whisperer — Jul 2023 – Present

- Built reliable services and cut deploy anxiety with predictable CI
  - Told the cache the deploy was a drill so it would stay calm
  - Kept the old path on call in case the new one got stage fright
- Wrote runbooks so clear that on-call stopped being a contact sport

Bug Whisperer — Jul 2021 – Jun 2023

- Shipped the first on-call runbook

Stack Overflow Overflow — Byteburg, CA
Software Engineering Intern — May 2022 – Aug 2022

- Shipped internal tools and turned a 12-step release into one command

Projects

RubberDuckDB (Go, SQLite, gRPC) — Github · Live

- Toy database with snapshots, polite errors, and too many duck puns

CommitMessageGenerator (Python, FastAPI, Redis) — Github

- Generates commit messages from "fix typo" to Shakespearean tragedy

Certificates

Certified Cloud Whisperer, Example Institute (Credential) — Jun 2024
Kubernetes Trouble Tourist, CNCF Fan Club — Jan 2023

Activities

Open Source Mentoring Collective — Jan 2022 – Present

- Mentored newcomers and reviewed first-time contributor PRs
