SUMMARY

Engineer who ships reliable systems, writes boringly good docs, and consults rubber ducks before merging.

EDUCATION

University of Hypothetical Sciences

B.S. Computer Science

- GPA: 3.9/4.0 | Coursework: Algorithms, Distributed Systems, Databases

Null Island, AT

Aug 2019 — May 2023

EXPERIENCE

Senior Bug Whisperer

Infinite Loop Inc.

- Built reliable services and cut deploy anxiety with predictable CI
- Wrote runbooks so clear that on-call stopped being a contact sport

Jul 2023 — Present

Remote

Software Engineering Intern

Stack Overflow Overflow

- Shipped internal tools and turned a 12-step release into one command

May 2022 — Aug 2022

Byteburg, CA

PROJECTS

RubberDuckDB — Go, SQLite, gRPC

- Toy database with snapshots, polite errors, and too many duck puns

[Github](#) · [Live](#)

CommitMessageGenerator — Python, FastAPI, Redis

- Generates commit messages from “fix typo” to Shakespearean tragedy

[Github](#)

CERTIFICATES

Certified Cloud Whisperer, Example Institute ([Credential](#))

Jun 2024

Kubernetes Trouble Tourist, CNCF Fan Club

Jan 2023

ACTIVITIES

Open Source Mentoring Collective

- Mentored newcomers and reviewed first-time contributor PRs

Jan 2022 — Present

SKILLS

Languages: Python, Go, TypeScript, SQL, Bash

Technologies: FastAPI, React, PostgreSQL, Redis, Docker, Kubernetes

Tools: Linux, GitHub Actions, Neovim, rubber ducks
